

kirkbydesign

Contemporary textiles for interiors

The latest offering from Kirkby Design sees the brand launch three innovative and stylish plain quality fabrics for 2017.

The bestselling, hard-wearing Crush velvet is relaunched in an updated colour palette of earthy hues and pastel shades, while Trace, a practical, soft-to-the-touch textured velvet is presented in predominantly muted tones with pops of vibrant colour. To complete the launch, Soda is a flame retardant Trevira CS fabric that has a subtle melange effect.

SODA

Trevira CS Textured Plain

SODA

Trevira CS Textured Plain

Soda, a sophisticated and modern Trevira CS plain weave has an understated melange effect and subtle movement of colour.

A textured wool appearance gives the fabric added depth and an irresistibly tactile quality. A contemporary palette showcases fresh shades of green, alongside earthy neutral tones.
