

# VILLA NOVA

FRAMED BY VAST IMPOSING GLASSHOUSE  
STRUCTURES, GENTLE SHADOWS AND SHAFTS  
OF LIGHT INTERPLAY WITH THE ENTWINING  
TROPICAL FOLIAGE FOUND WITHIN.

Wild and dramatic, the Ostara collections embrace painterly prints abundant with botanical flourishes, whilst oversized leaves create a canopy of abstract patterns that obscure and diffuse the light. Intriguing geometrics form a rigid backdrop to organic silhouettes that are interjected by shooting fronds.

## OSTARA

### Prints, Weaves & Embroideries

Taking inspiration from botanical gardens and great glasshouse structures that create a mighty framework for swathes of tropical foliage, the Ostara collection encapsulates the dynamism of nature. An enticing blend of painterly prints with an expressive and artistic sensibility are teamed with botanically charged decorative weaves and modern geometrics complemented by a vibrantly striped sheer.
