BLACK edition

An avant-garde display of design and colour. Elusive inky florals and abstract landscapes in an intoxicating palette of vivacious shades create an explosion of contemporary artistry. Enticingly tactile wallcoverings feature deconstructed designs and lustrous embosses, while precious metal hues sit playfully amongst rich, jewel-like tones enhancing sumptuous weaves. A radiant palette of metallic shades reminiscent of oxidised metals add lustrous tones to captivating sheers. Distinctive designs exude unprecedented luxury and evoke a unique Black Edition style.
