BLACK edition

An early 17th Century chateau is bathed in gentle autumnal sunshine. The scent in the air is exhilarating, there is radiance in the sky and softness to the hazy afternoon light. A sense of faded grandeur permeates the patina on the walls, sweeping stone staircase, warm terracotta tiles and wide open windows with views that go beyond what the eye can see. An idyllic setting in which to complement the rich, contemporary elegance infused in the exclusively designed collections from Black Edition.
