ARCHITECTURE

Performance, Style and Reassurance

Villa Nova introduces five new collections designed to meet the technical requirements of the contract sector, reflecting our commitment to creating stylish fabrics and wallcoverings that are both functional and practical.

Taking inspiration from time-worn surfaces and geometric structures found in architecture, the collections have a striking graphic element translated into textural and uncomplicated patterns that capture an urban, modern simplicity. Contemporary raw textures, edgy exposed concrete and polished plaster in dramatic, industrial inspired shades characterise the collections. This compilation of Trevira CS fabrics and vinyl wallcoverings are perfect for any contract project and highly suitable for domestic interiors.

RENZO

Wide-Width Trevira CS Weaves

Renzo captures an air of urban chic and exudes an atmosphere of luxury. This intriguing ensemble of easy care Trevira CS fabrics is a mix of modern, graphic pattern with contrasting textures. Renzo fabrics have a soft drape and stunning movement of colour and pattern with matt and shimmering hints that add radiance to the collection.
